

THE THERMOPLASTIC PIPE EXTRUSION INDUSTRY IN GERMANY

This section gives information on all companies identified carrying out pipe extrusion in Germany. This section is divided into 2 parts which give the following information:

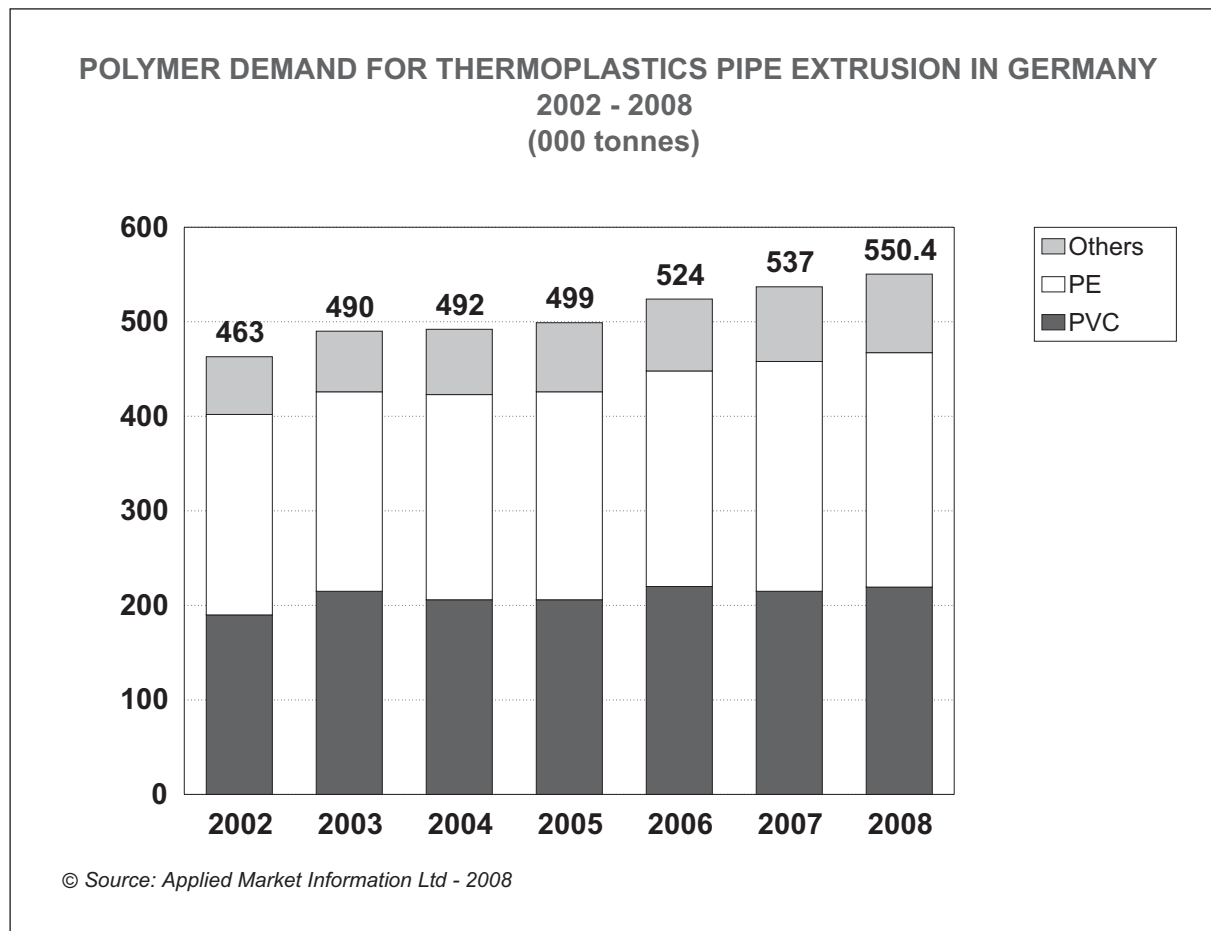

Part One: This is a double matrix which gives the full address, telephone and fax numbers, e-mail and website addresses and one management. It also indicates the polymers processed, the type and size of pipes manufactured, the end use applications and technologies used.

Part Two: This consists of some additional information for all entries where a dot is shown in the following columns: other polymers and other pipes.

Part Three: This shows the companies which have achieved an ISO registration

For further information on how to use the guide, please refer to the notes of how to use the guide in the introduction.

Number of plants: 74

Polymers processed

Pipes manufactured - Below ground

	LLDPE	LDPE	HDPE	MDPE	PEX	PE 80	PE100	PE-RT	PP	ABS	PolyButylene	PVC	PVCc	Others	Pressure pipe	Non pressure pipe	Gas pressure	Water pressure	Foul water drain/sewage	Storm water drainage	Highway drainage	Agriculture drainage	Cable protection
